

VINYL POLY SPIDER WHITE MATT GREYBACK (P) 80MIC

Description:

Matte white calendered vinyl, 80 microns thick, with gray backing. Permanent. Solvent-based adhesive. Compatible with solvent, eco-solvent, UV, and latex inks. Can be protected with a lamination film.

Applications:

Outdoor digital printing and screen-printing media, intended for signage, vehicle graphics, and graphics for airports and subway stations.

PVC	VALOR
Thickness	80±10um
Color	Ceramic White
Surface	Matt
Shrinkage	≤ 0.6%
Surface Tension	≥ 30dn/cm
Opacity	> 95%
ADHESIVE	VALOR
Type	Gray solvent based permanent pressure sensitive glue
Weight (g/m2)	25±5
Adhesion Temperature	10°C~40°C
Peeling Force	≥ 14N/25mm 24H
Initial Adhesion-Loop Tack	≥ 8N/25mm*25mm
Holding power	≥ 1440min
LINER	VALOR
Type	Papel kraft con recubrimiento plástico en ambas caras
Weight	140g±10g/m2
Color	White
Release	0.05~0.2N/25mm

Storage period: 12 months under ordinary condition at temperature of 10°C-35°C and relative humidity of 50-60%

We recommend the dry application of any self-adhesive product. If water or a water-and-soap solution is used, its performance may be affected due to adhesive reactions with water and soap, such as incompatibilities on glass, the appearance of stains, etc. Please consult your sales representative for more details.
